

A River's Journey

A wide-angle landscape photograph showing a small stream flowing through a grassy, rocky valley. In the background, a mountain range is visible with patches of snow on its slopes under a clear blue sky. The stream is composed of several small pools and channels separated by large, grey rocks. The grass is a mix of green and yellow, suggesting a high-altitude or alpine environment.

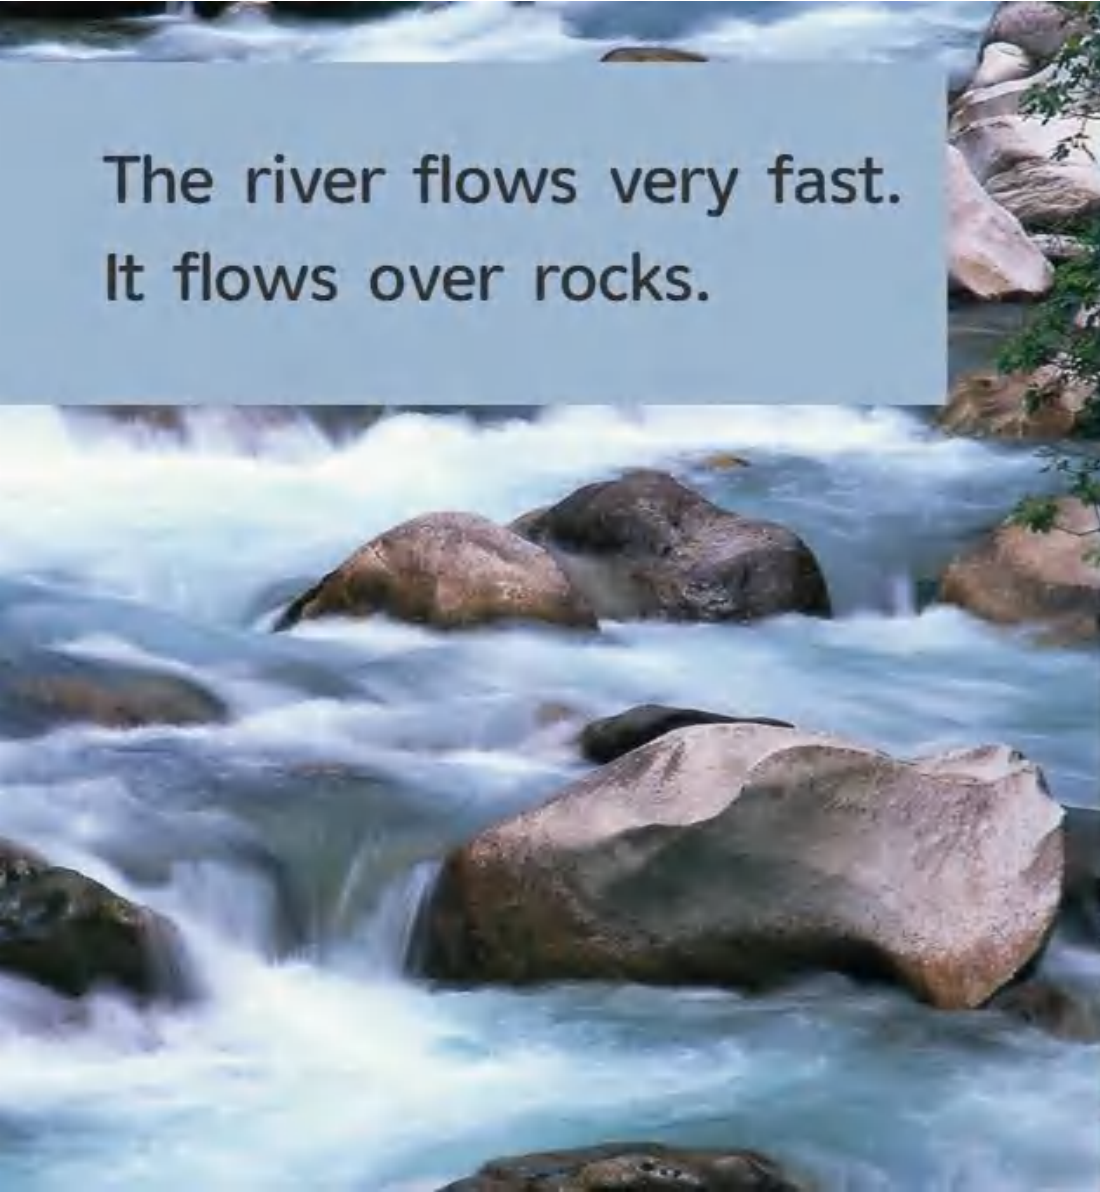

A river begins
in the mountains.

It begins as
a small stream.

The stream flows
down the mountain.
It grows bigger.

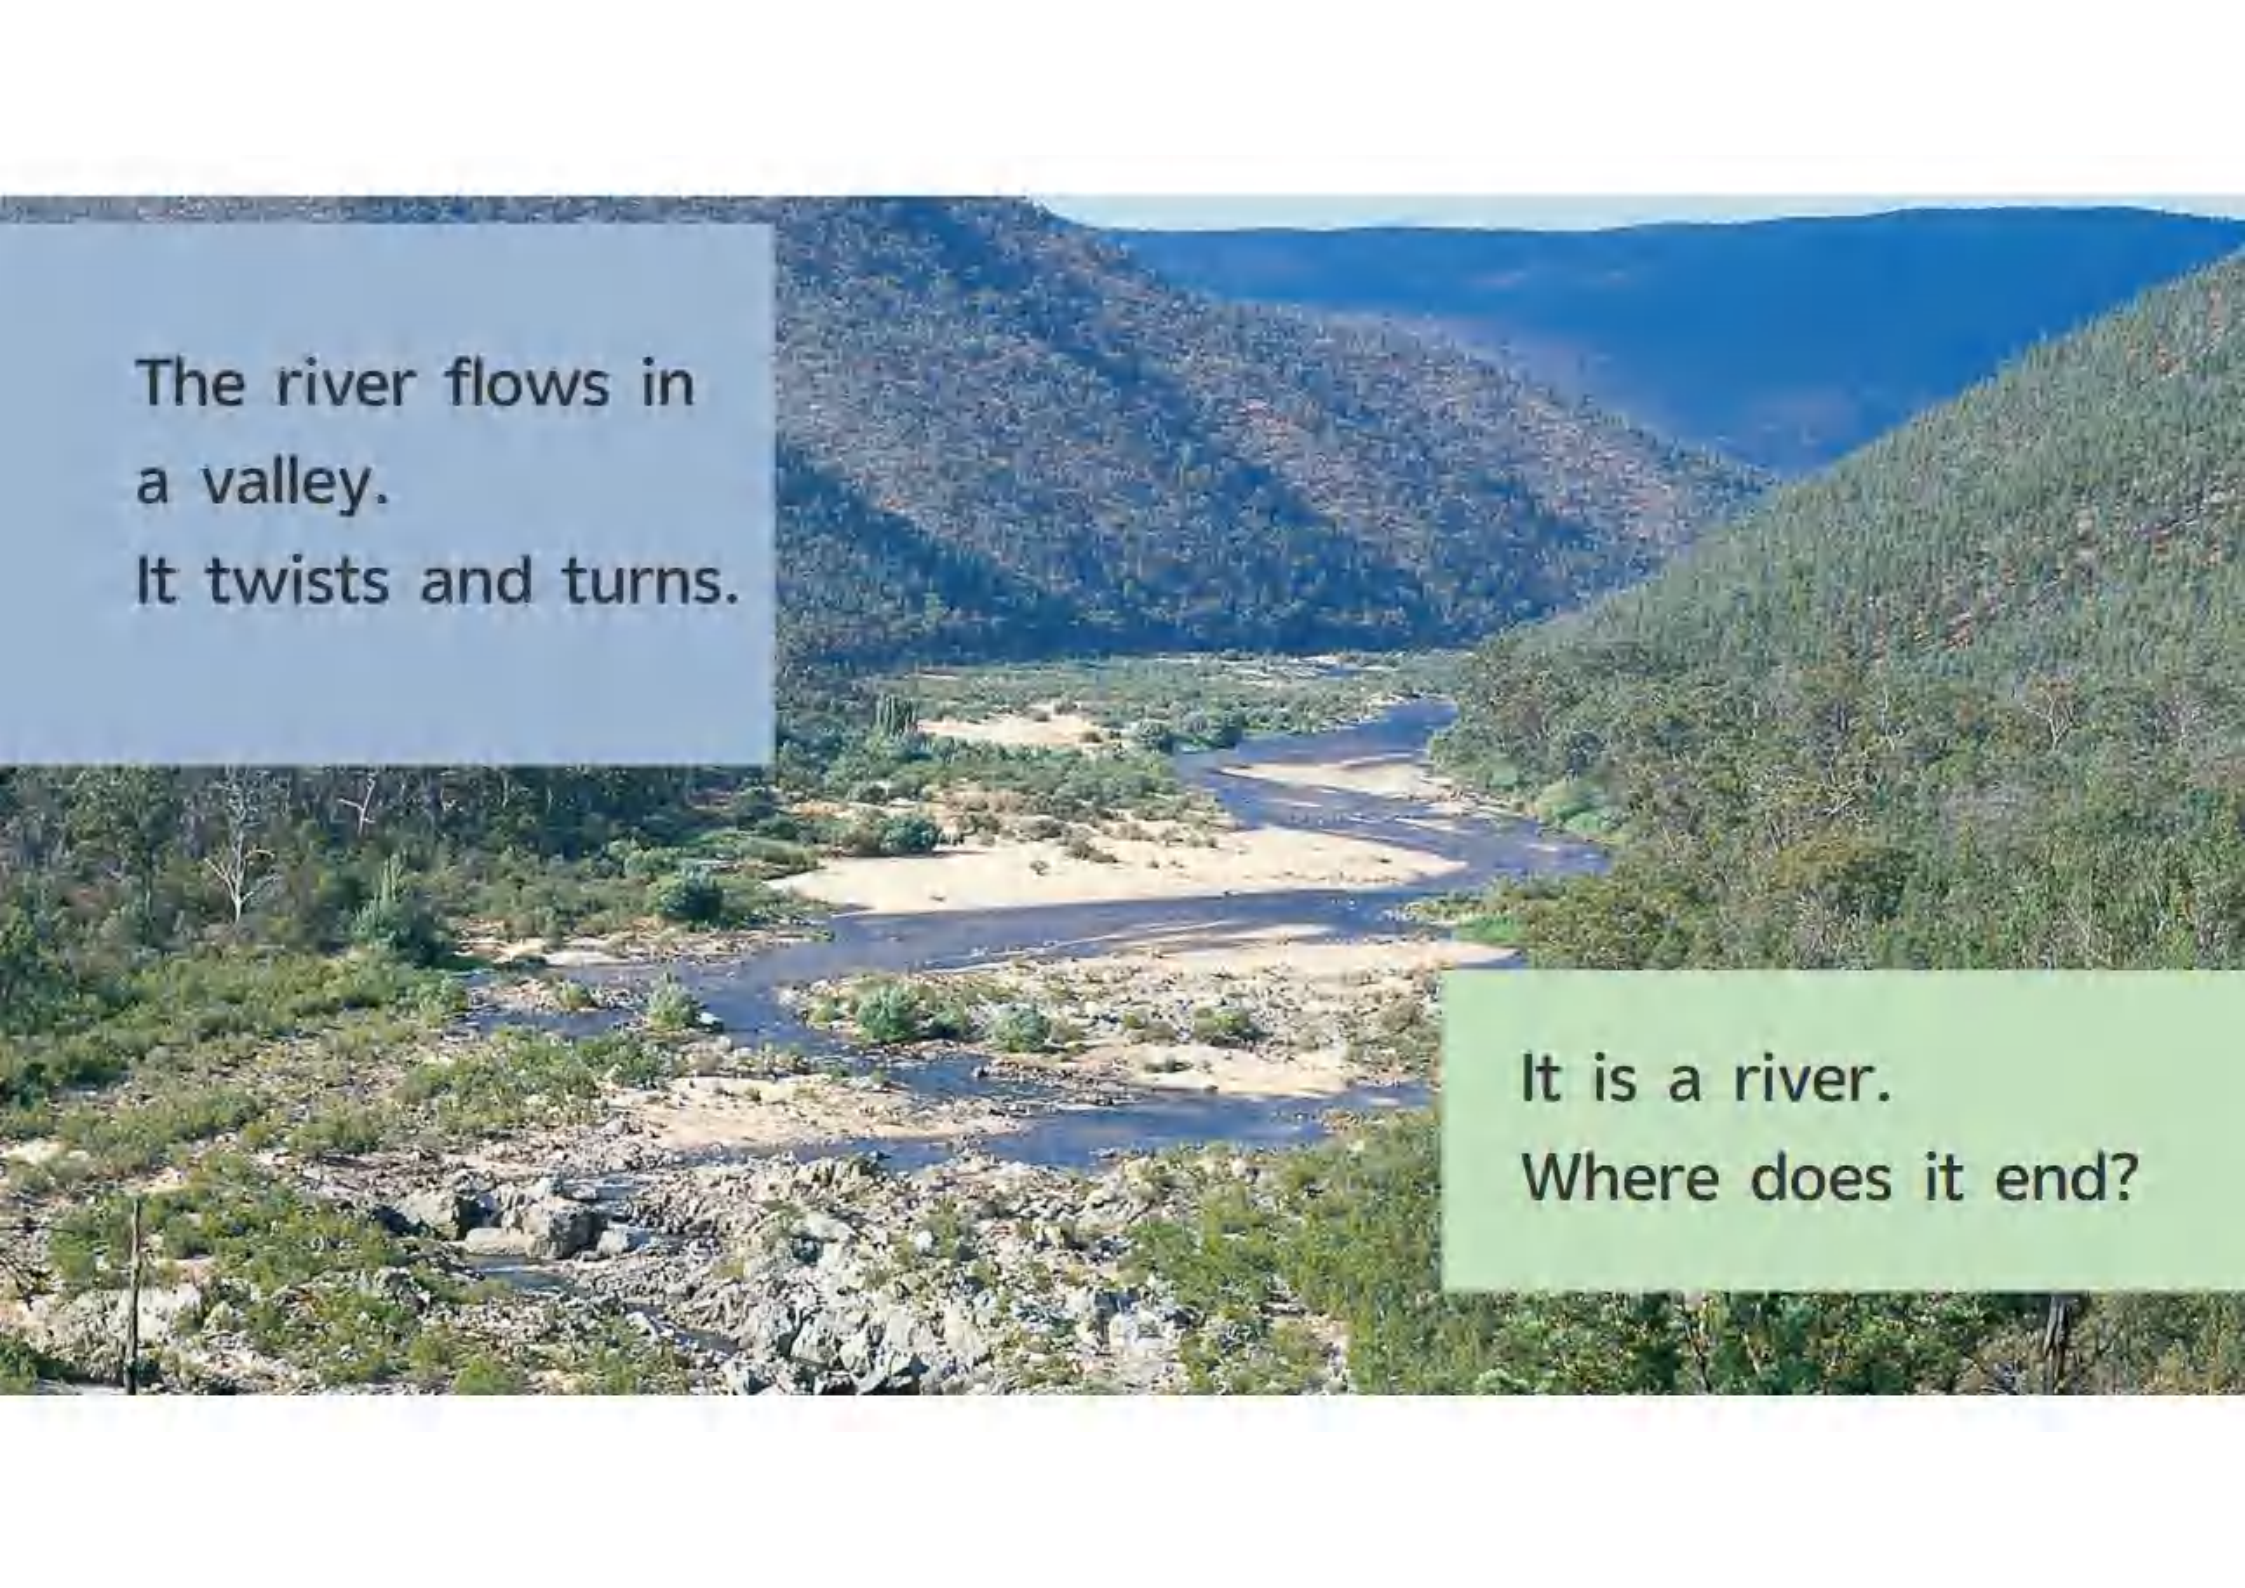

It is a river.
Where does it end?

The river flows very fast.
It flows over rocks.

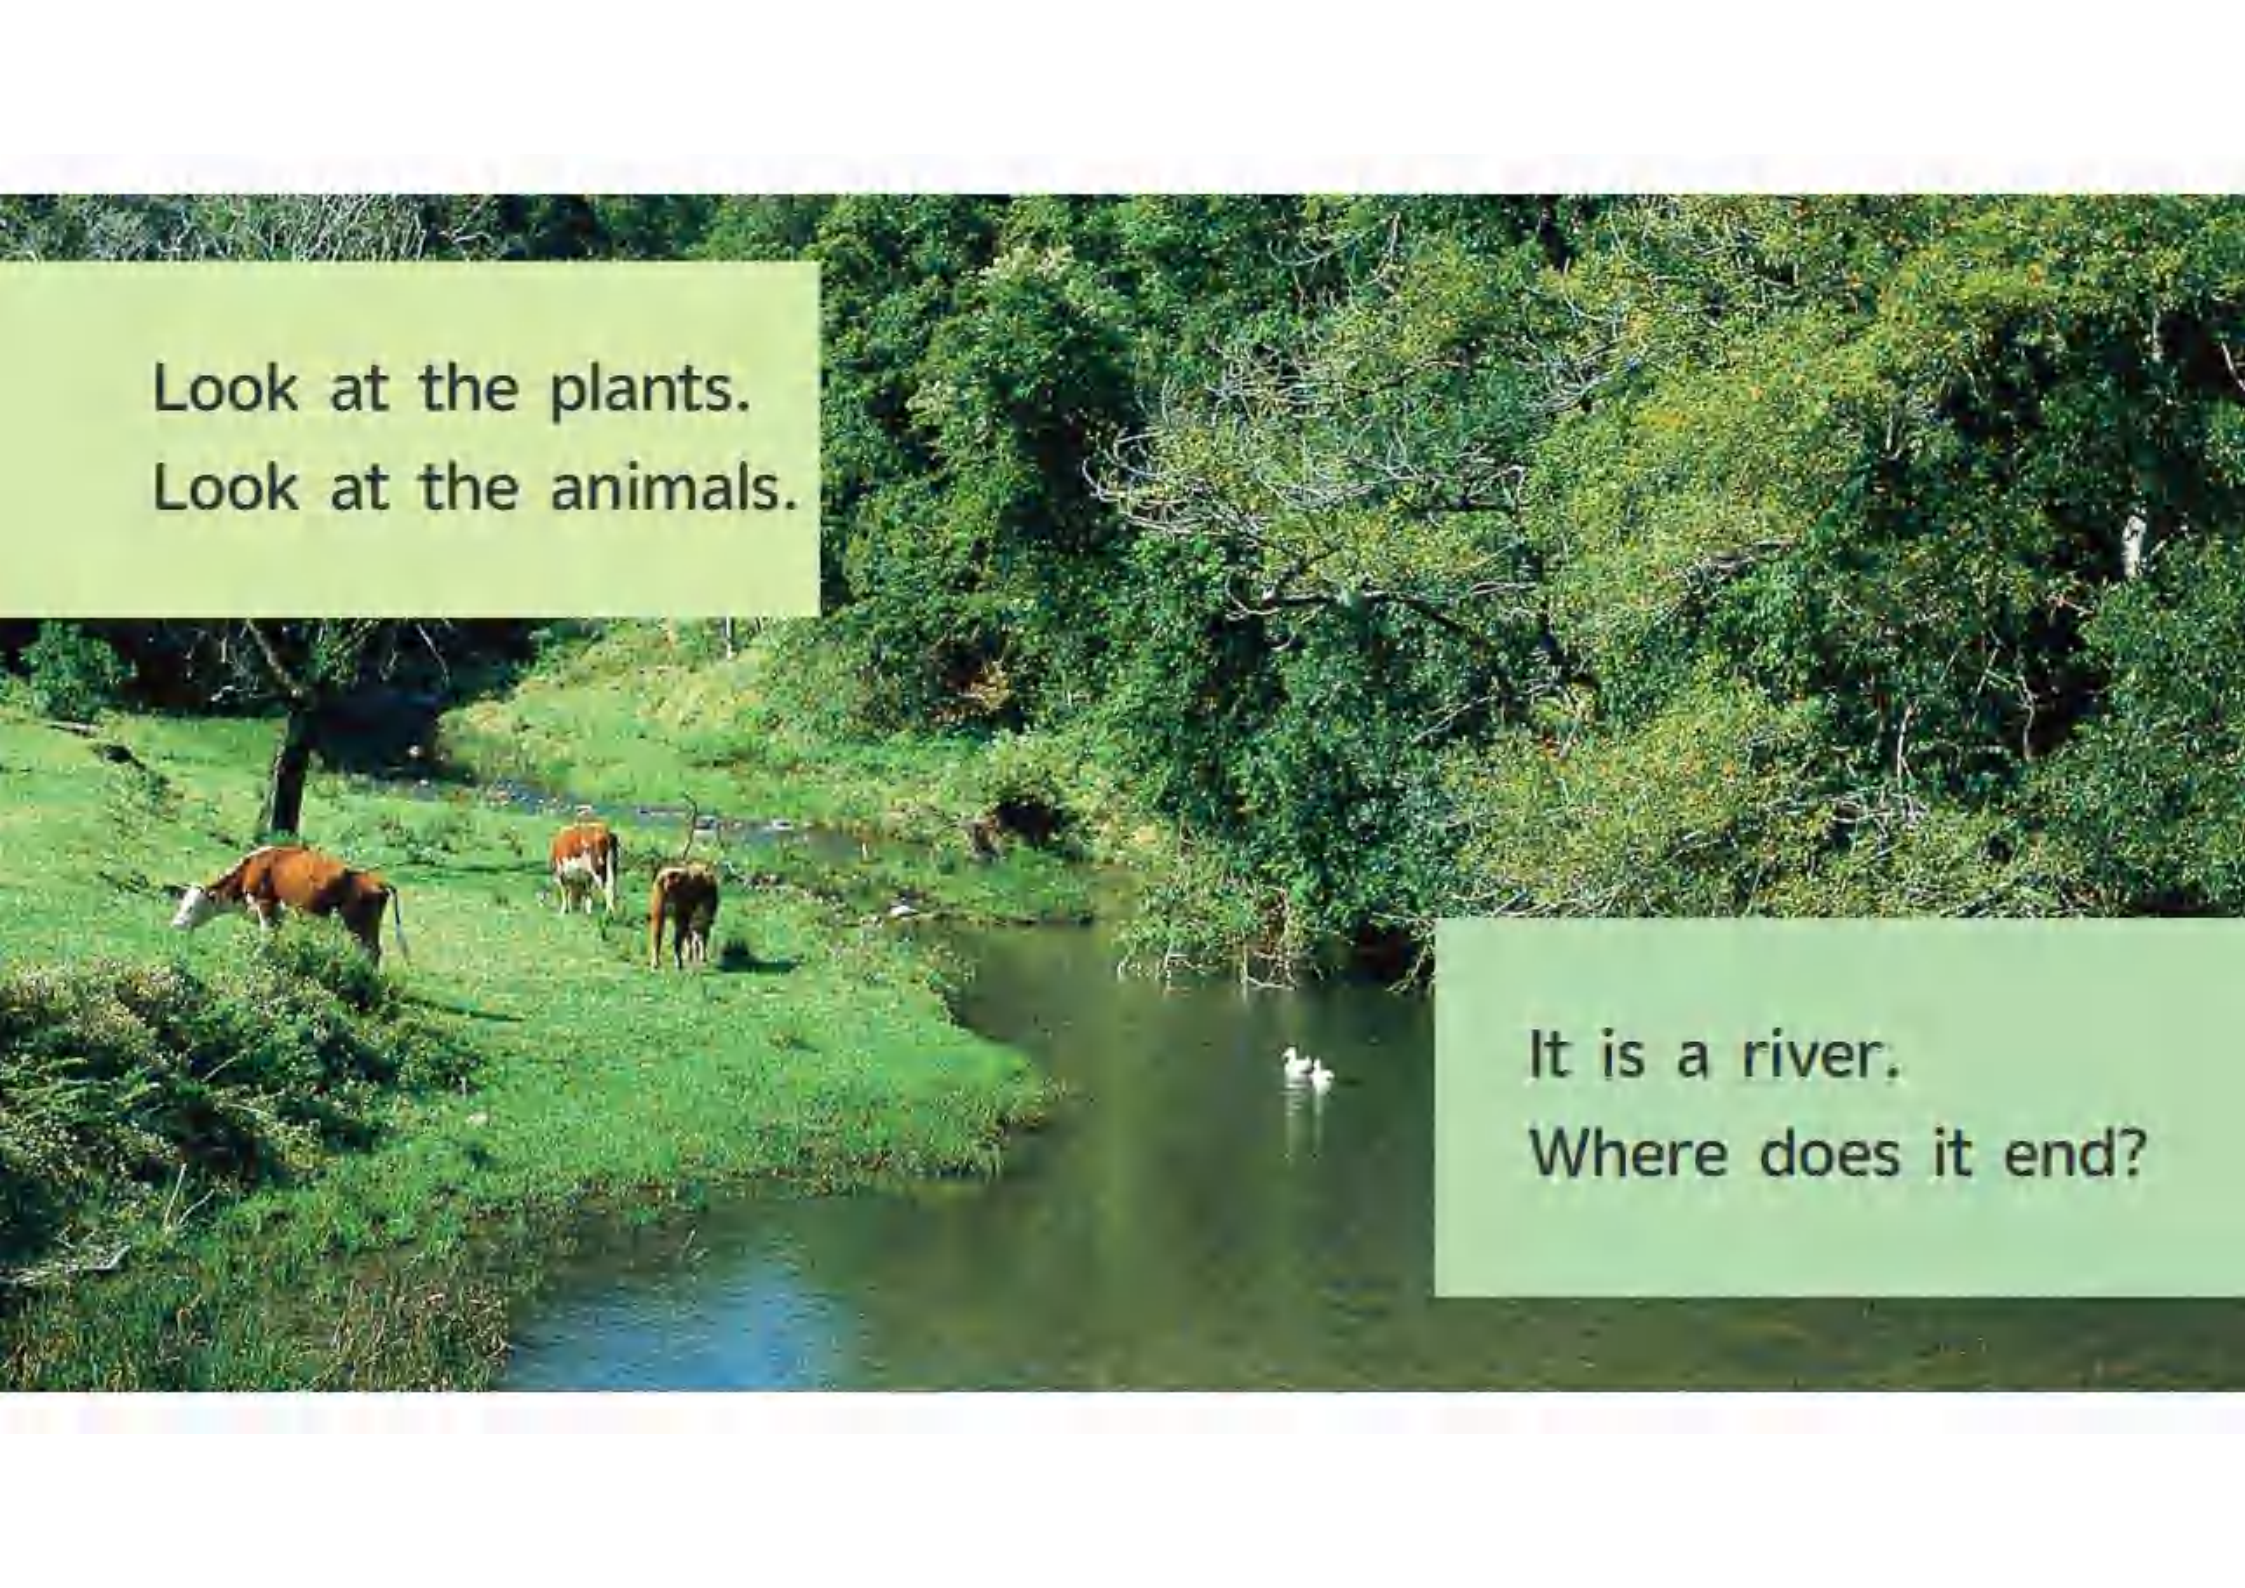

It becomes a waterfall.
It roars!

A wide-angle photograph of a river flowing through a valley. The river is dark and winding, with sandy banks and some rocky areas. The surrounding hills are covered in dense green forest. The sky is clear and blue. The text is overlaid on a semi-transparent blue box on the left side of the image.

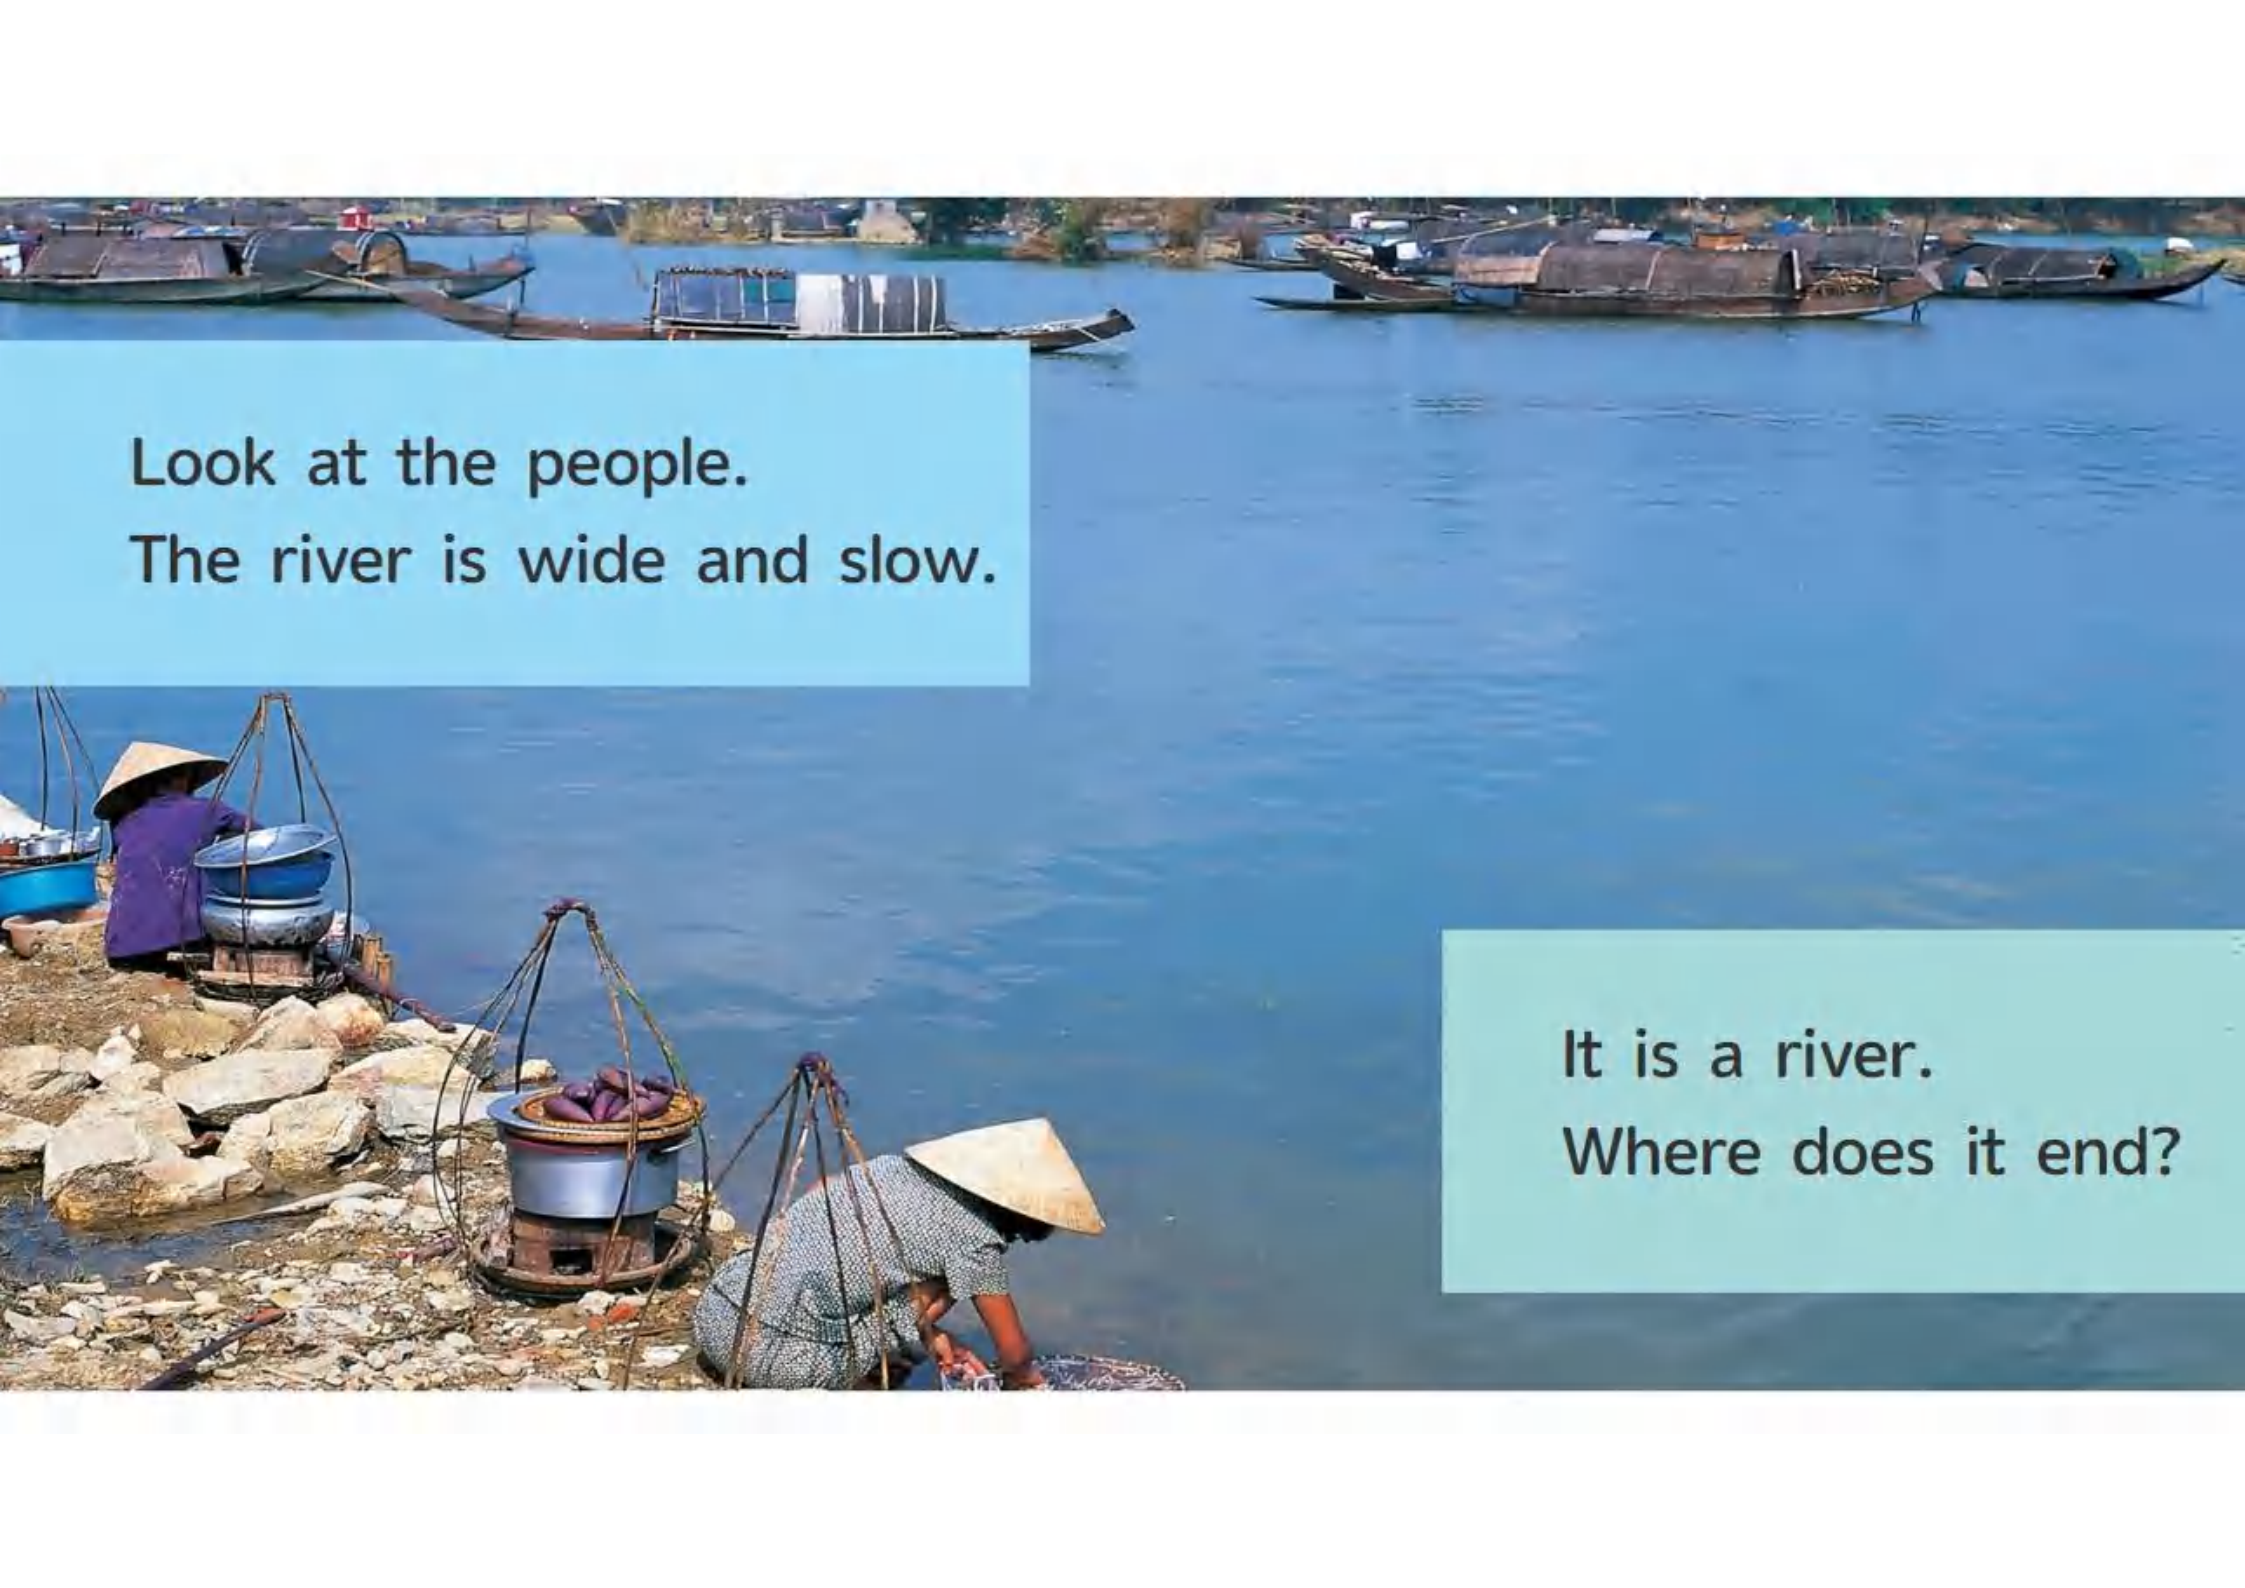

The river flows in
a valley.
It twists and turns.

It is a river.
Where does it end?

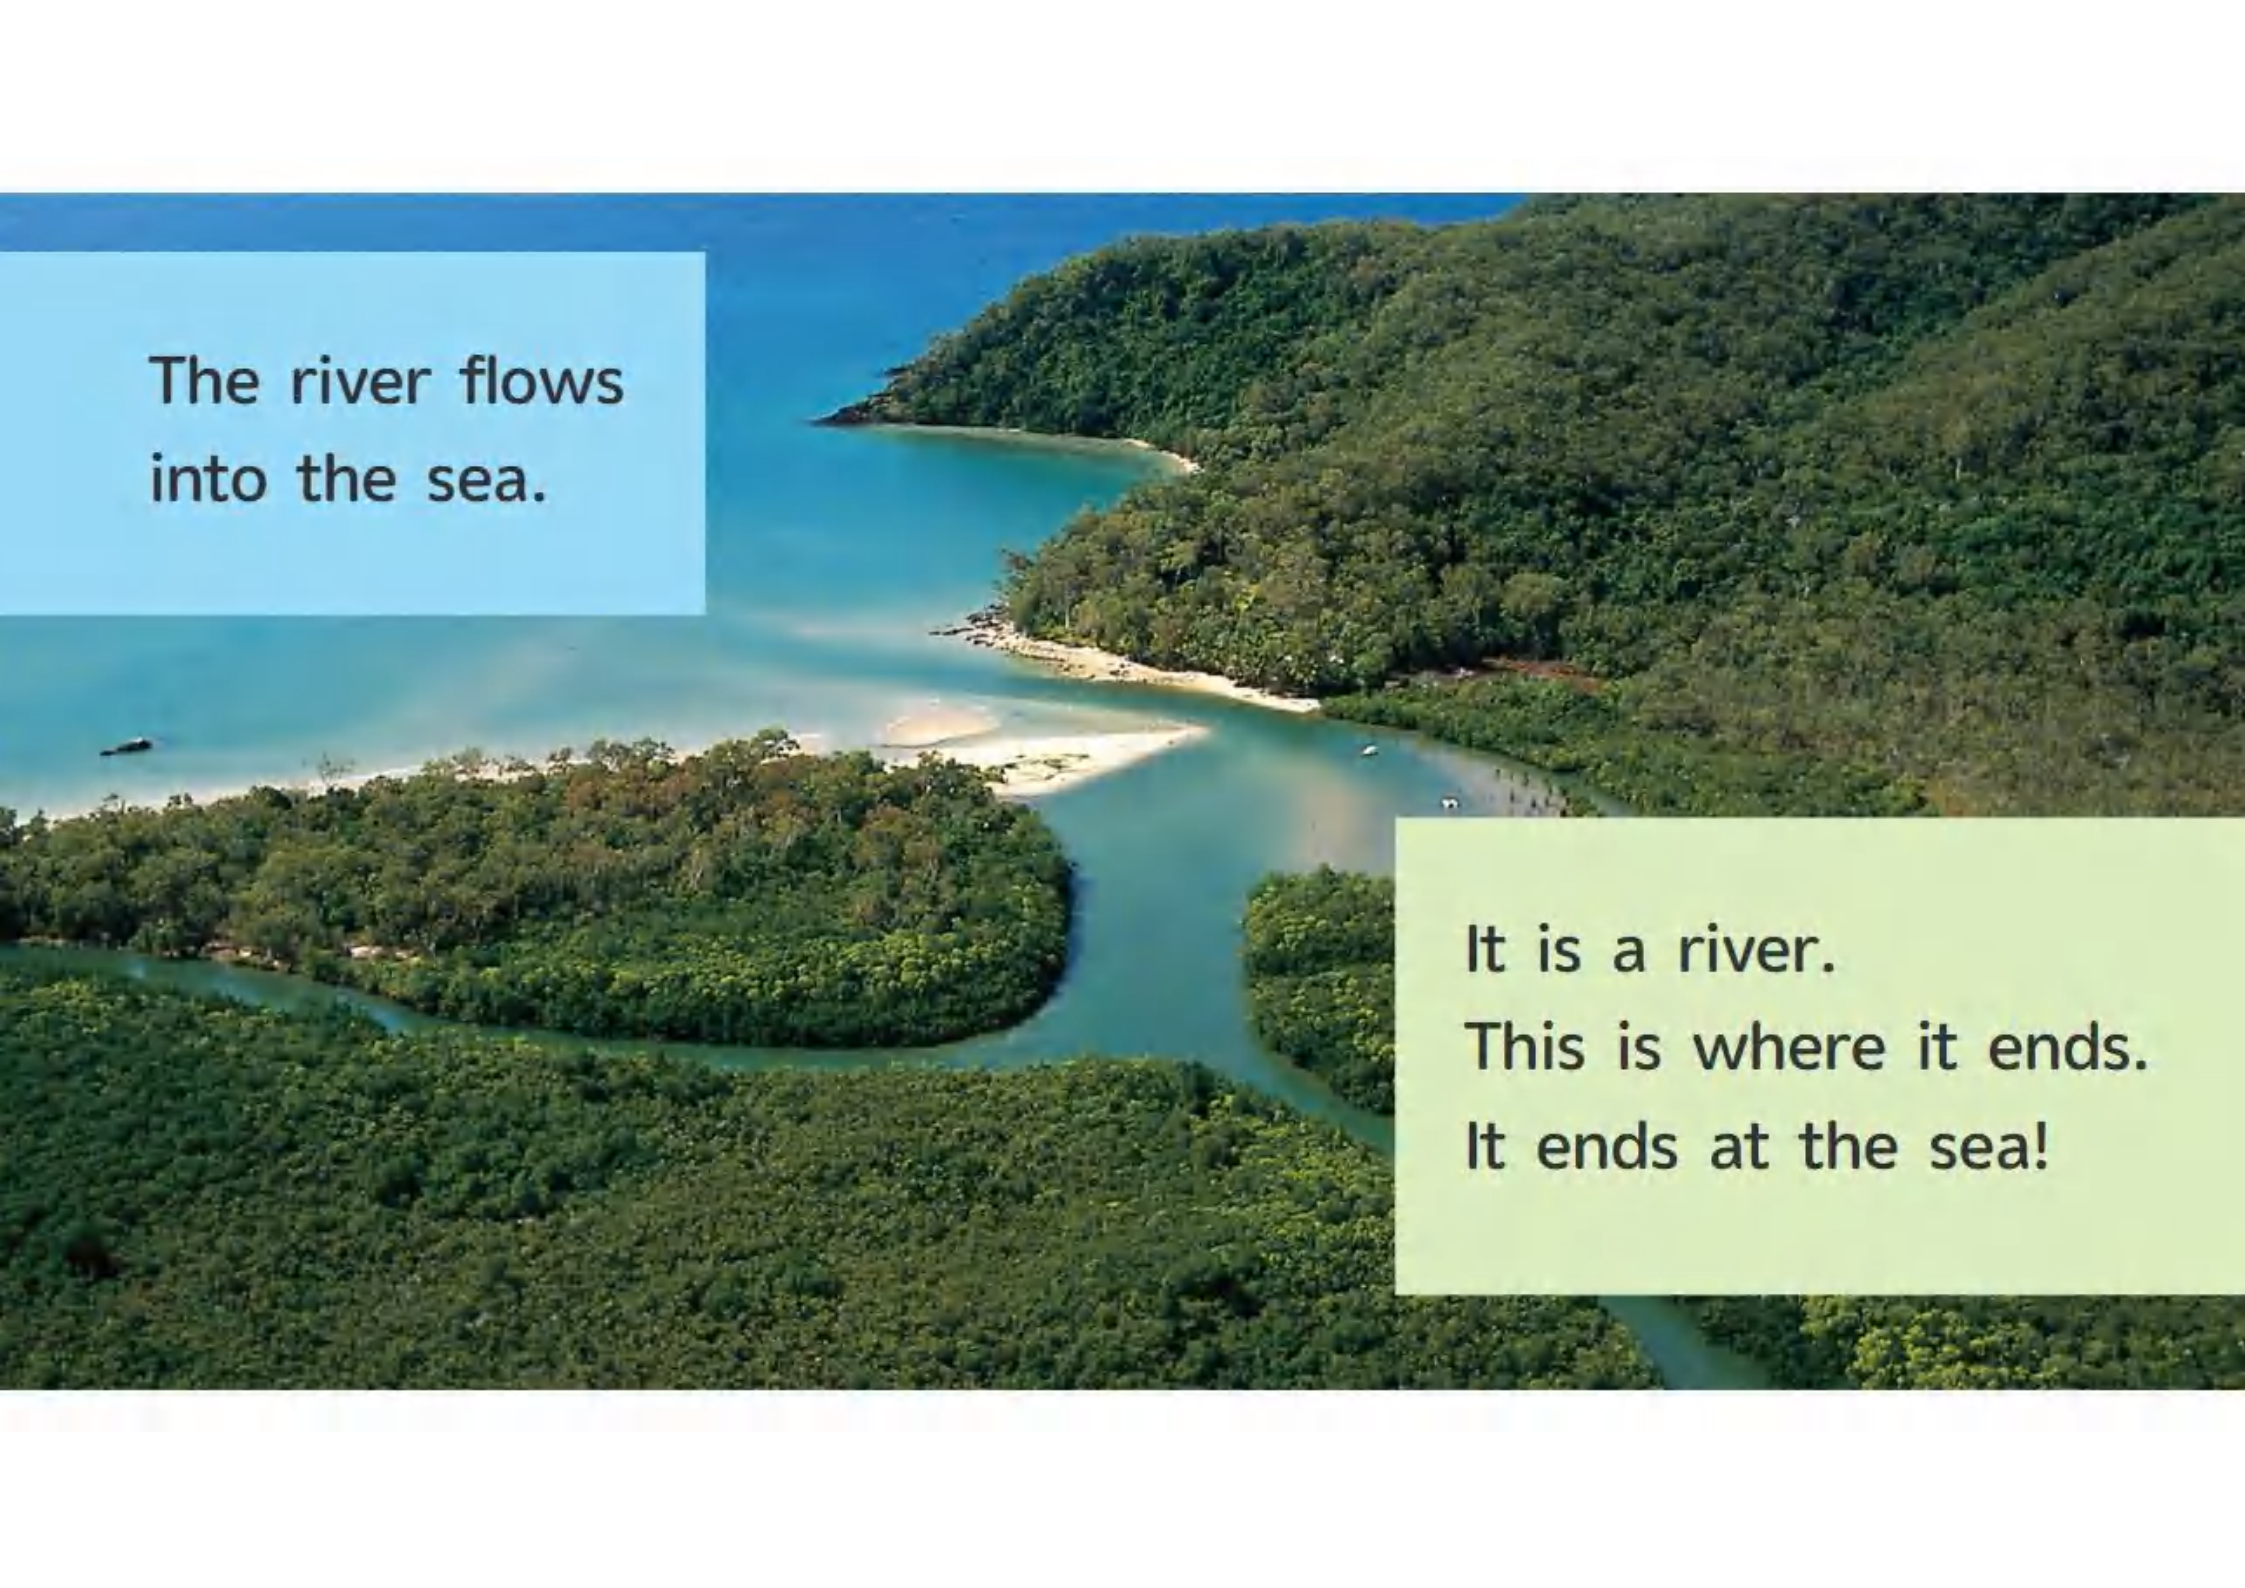

Look at the plants.
Look at the animals.

It is a river.
Where does it end?

Look at the people.
The river is wide and slow.

It is a river.
Where does it end?

An aerial photograph showing a river delta where a river flows into the sea. The river is a light blue color, contrasting with the deep blue of the sea. The surrounding land is covered in dense, lush green forest. The river branches out into several smaller channels as it approaches the sea. A small sandy beach is visible where the river meets the sea.

The river flows
into the sea.

It is a river.
This is where it ends.
It ends at the sea!
